

Collaborative Teaming for Support of Students Using AAC in Inclusion *Roles & Responsibilities*

Support Team for: _____

Term & School Year: _____

ACTIONS TO BE TAKEN RE: THE AAC DEVICE	IST	SLP	GET	TVI	OT/ PT	Para	AAC	AT	Fam	Stu
Device use in the classroom										
• Who will program the device for participation in classroom activities?										
• Who will teach peers how to interact with the student who uses the device?										
• Who will define classroom opportunities for device use?										
• Who will design/develop participation plans for classroom activities?										
Device Content										
• Who will manage the organization of the system content to ensure continuity?										
• Who will identify the language that needs to be added to the device?										
• Who will teach the student where/how new system content is stored?										
• Who will teach the user how to use the new system content?										
• Who will teach other team members about the new device content?										
• Who will maintain updated documentation of system content?										
Device support and Documentation										
• Who will make changes to the overlay?										
• Who will make changes/adjustments when necessary to the positioning of the device and the mounting system?										
• Who will fabricate and/or acquire supplementary tools for access to the device?										
• Who will evaluate the student's acquisition of new skills related to device use?										
• Who will record data relative to goals and objectives targeting device use?										
Device Maintenance										
• Who will clean device on a scheduled basis?										
• Who will charge the device on a scheduled basis?										
• Who will charge the device on an as needed basis?										
• Who will troubleshoot mechanical problems with the device?										
• Who will contact the manufacturer regarding problems with the device?										
• Who will send the device out for repair?										
• Who will obtain a back-up system while the device is in for repair?										
• Other:										
• Other:										
• Other:

ACTIONS TO BE TAKEN RE: THE COMPUTER	IST	SLP	GET	TVI	OT/ PT	Para	AAC	AT	Fam	Stu
Computer set-up and workstation										
• Who will make changes/adjustments when necessary to the positioning of the computer and workstation?										
• Who will fabricate/acquire supplementary tools for access to the computer?										
• Who will program adapted tools for access to programs and activities?										
Computer Use to Support the Curriculum										
• Who will define classroom opportunities for computer use?										
• Who will identify/acquire the software necessary to support computer use?										
• Who manage the organization of the computer content?										
Computer Training										
• Who will teach the student how to use the computer functions?										
• Who will teach the student how to use the new software?										
• Who will teach other team member about the computer and its contents?										
• Who will teach peers how to interact with the student while using the computer?										
• Who will teach the family how to support the use of the computer at home?										
Computer Technical Support and Documentation										
• Who will make changes to the desktop?										
• Who will maintain updated documentation of the computer content?										
• Who will evaluate the student's acquisition of new skills related to the computer?										
• Who will record data relative to goals and objectives targeting computer use?										
• Who will maintain manuals for the computer system and software?										
Computer Maintenance										
• Who will clean the computer on a scheduled basis?										
• Who will troubleshoot hardware problems with the computer?										
• Who will troubleshoot software problems with the computer?										
• Who will contact a service center regarding problems with the computer?										
• Who will send the computer out for repair?										
• Who will obtain a back-up system while the computer is in for repair?										
• Other:										
• Other:
