

MATT M.

MUSICIAN, HIKER, OUTDOORSMAN

I love to be outdoors--hiking, canoeing, boating, snowmobiling, fishing, and more. I love to do sports such as golf, swimming, bowling, hiking, skiing, and yoga. I love animals of all kinds. I love to be with friends, dancing and having fun. I love listening to music. My musical tastes are eclectic: from rock, hard rock, and country, to blues,

jazz, and classical. In high school, I was in a band and played the tambourine and sang. Some day I want to be a DJ! I also love to play the drum. I really love interacting and talking with people. I enjoy learning new things.

I use an iPad with a communication app to speak with others. The app

allows me to type a message and then I can press a button and speak my message aloud. I also use sign language to communicate with others. You can ask to see my 'Sign' book - it has all of the signs I know! One of the coolest things - I have a friend that has a dog that is deaf. I sign commands and the dog obeys.

MY BUDDY!

DRUMMING

GOLFING!
